Work Experience

Jabsz Gaming Studios LLP

05/2025 – 09/2025

Web Developer Intern

Remote

- Developed and deployed **QuizByte**, a full-stack coding challenge platform enabling users to solve daily, weekly, and contest-based programming problems with real-time leaderboards, and streak tracking;
- Collaborated with cross-functional team of **5 developers** using **Git workflows** and **Agile methodology**, achieving **95% on-time delivery** rate across **10+ sprints**

Projects

OSSium | *Website*

NextJS | PostgreSQL | Tailwind CSS

- Built a **full-stack OSS discovery platform** serving **1000+ registered users**, enabling developers to search, filter, and manage open-source projects with advanced search capabilities
- Integrated **OAuth 2.0 SSO authentication** (Google, GitHub) using **NextAuth.js**, reducing user onboarding friction by **60%** and increasing signup conversion rate
- Implemented **Dodo Payments** gateway for premium subscriptions, processing secure transactions with **99.9% uptime**

MX Icons | *Website* | *Source Code*

React | JavaScript | npm

- Created and published an **open-source icon library** on npm featuring **5000+ optimized SVG icons** with **tree-shaking support**, reducing bundle size by **70%** compared to traditional libraries
- Maintained comprehensive documentation with **live code examples**, enabling seamless developer integration with plug-and-play React components

SecureTOTP | *Source Code*

Spring Boot | Spring Security | JWT | MongoDB

- Engineered a **secure TOTP-based 2FA web application** implementing industry-standard **RFC 6238 algorithm** for time-based one-time password generation
- Designed **stateless JWT authentication** architecture with refresh token rotation, ensuring **zero session storage overhead** and horizontal scalability
- Implemented **PIN-based MFA** with rate limiting (**5 attempts/min**) and brute-force protection, blocking **99%** of unauthorized access attempts

Achievements

College Hackathon

10/2025

- Won **1st position** among **50+ teams** in college hackathon by developing **CityCare** - a civic reporting platform allowing users to submit geo-tagged photos of issues (potholes, waste, etc.) for review and assignment by authorities.

Open Source Contributor

01/2025 – Present

- Improved accessibility in **FOSS United** by adding alt text across the platform (PR #1306)
- Enhanced official TypeScript Cheat Sheet on **QuickRef.me** with advanced types and best practices (PR #707)

Technical Skills

Languages: Java, JavaScript, TypeScript, SQL, C/C++, Python

Backend: Spring Boot, Spring Security, Node.js, Express.js, REST APIs, JWT, OAuth 2.0

Frontend: React, Next.js, Tailwind CSS

Databases: PostgreSQL, MySQL, MongoDB, Redis

Tools & Platforms: Docker, Postman, Swagger, Vercel, VS Code

Education

Rayat Bahra Institute of Engineering and Nano Technology

Hoshiarpur, Punjab

B.Tech in Computer Science and Engineering

08/2023 – 08/2027

- Relevant coursework: Data Structures, Algorithms, Database Management Systems, Computer Networks, Operating Systems, Software Engineering
